"Best gloves EVER in XS too for my tiny teeny hands!"

Edith D. (UK)

LADIES RANGE

It all started as an idea based on feedback from you guys – the end users. The idea quickly went from a prototype to one of our most well received stock lines, the Ladies 'Range For Her'. First trialled at Plasa 2012, the gloves were an immediate hit with women of all ages and they soon became a sell-out item. The gloves are available from size XXS upwards to ensure there is a comfortable fit for all.

- Terrycloth sweat wipe
- Neoprene knuckle padding
- I.D. tag
- Nylon double stitching
- Double layered in key wear areas
- Low-profile palm padding

INTENDED USES:

- General rigging
- Loadings/load outs
- Running cables
- Film set/scenic
- Camera operation
- Sound and lighting console (framer)

UNCOMPROMISED GRIP

GLOVES

ARMORDILLO

Strategically placed, specially selected materials are combined to produce a glove which is both dexterous and protective, even when sharp objects are commonplace. A DuPont™ Kevlar® lining provides optimal slash resistance while a tough yet flexible goatskin leather is used on the palm to ensure effective grip and puncture protection. Armortex® is used in all key risk areas to provide an exterior shield against sharp edges and objects.

- Articulated material for increased flexibility
- Fully lined with DuPont™ Kevlar®
- I.D. tag on wrist strap
- Armortex® shields key risk areas
- Puncture-resistant leather palm
- Low-profile palm padding

INTENDED USES:

- Manual handling of material with sharp edges
- General stores and warehouse use
- Machine operation
- Engineering
- Rapelling and climbing
- Heavy and general rigging

PRO-GRIP

Built for applications where grip is essential! The Pro-Grip glove provides the perfect combination of dexterity and grip in both wet and dry conditions. The low bulk, seam free palm fits the hand to give a snug yet outstandingly comfortable fit. Airprene knuckle panelling and a short style wrist cuff contribute towards the breathability of the glove, further enhancing comfort.

- Hexa-grip silicone embossed palm for superb grip
- Excellent grip in wet and dry conditions
- Super high dexterity and flexibility
- Airprene ventilated knuckle panel and wrist cuff
- Low-profile, short style wrist cuff
- Rounded seam-free finger tips

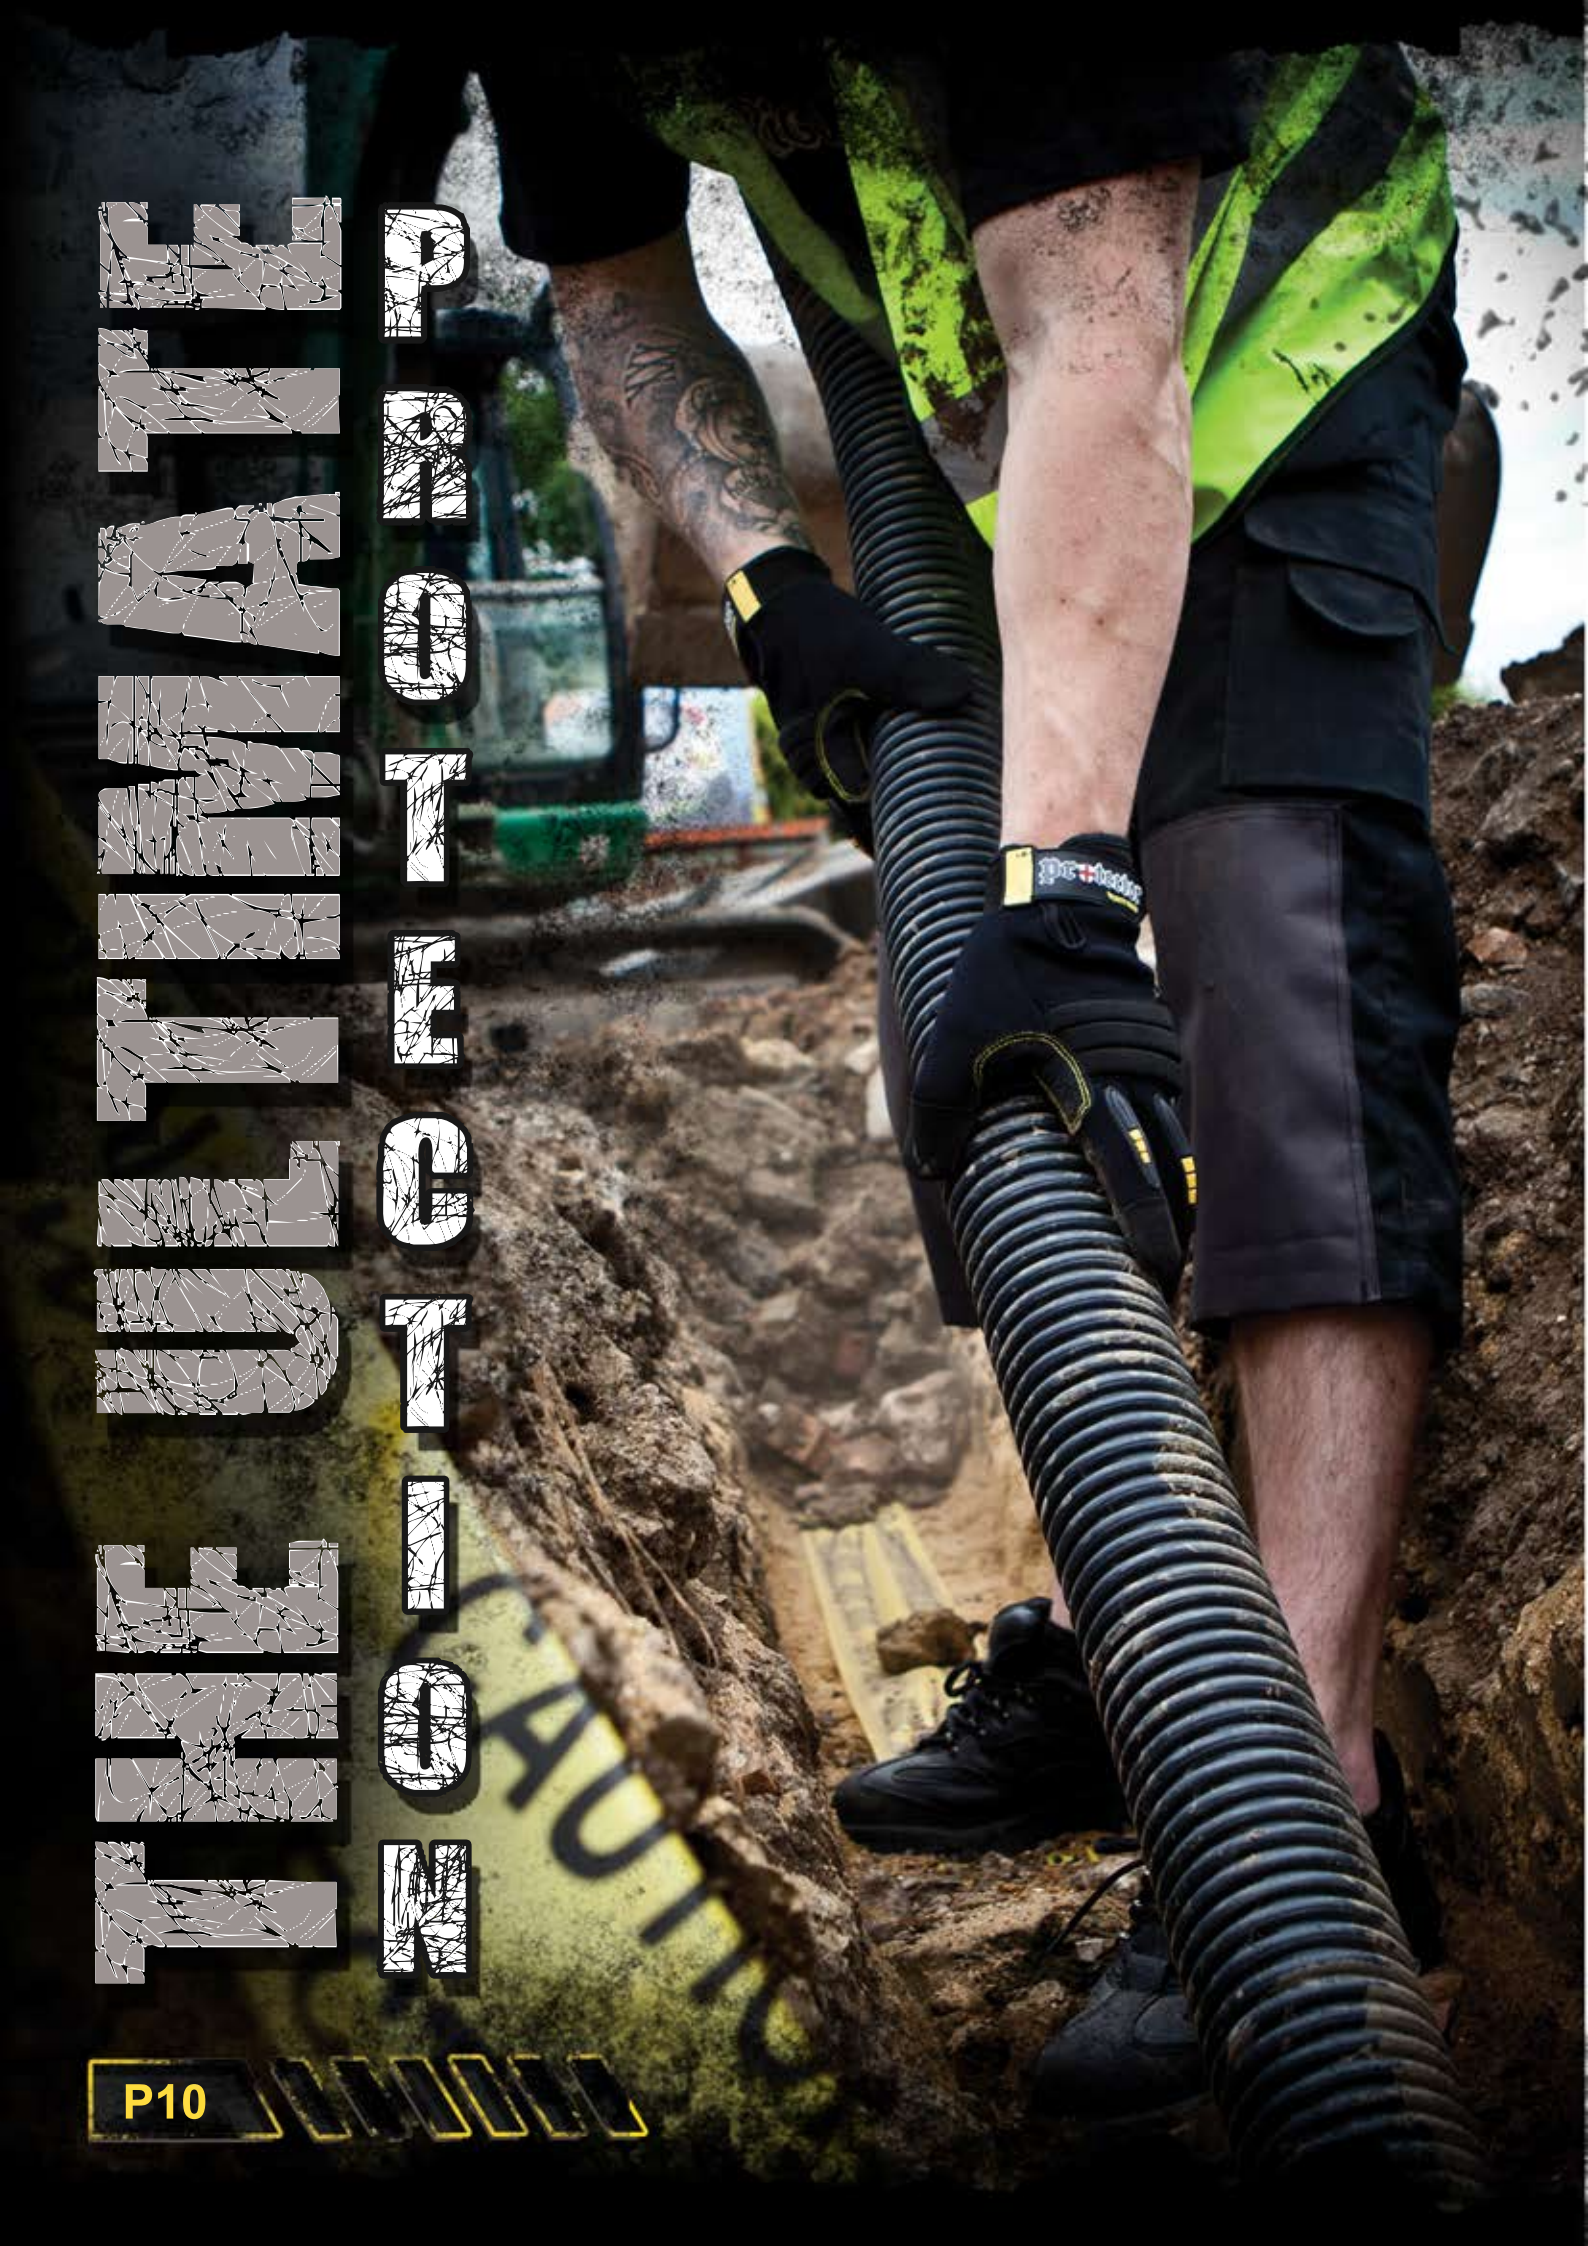

INTENDED USES:

- Handling trussing and scaffolding
- Loading equipment
- Working at height
- Gripping materials in wet and dry conditions
- Tactical use

AVAILABLE IN

THE PROTECTOR

Built for the hardest of workers, the Protector glove offers outstanding durability thanks to an Armortex™ covering on the fingers, palm and key wear areas. Combined with rounded, seam-free finger tips the Dirty Rigger® Protector is a truly tough glove. The Protector also boasts high density, motion-flexible knuckle protection, which works together with moulded rubber finger protection bands, offering subtle yet powerful hand defence.

- Rounded, seam-free finger tips
- Motion-flexible finger protection bands
- Motion-flexible, high-density protection foam
- Double stitching
- Armortex™ on key wear areas
- Low-profile palm comfort pads

INTENDED USES:

- Heavy duty rigging
- Rope work
- Construction
- Cable handling
- Materials handling
- Industrial maintenance and operation

SUBZERO

Keep hard working hands warm, dry and protected in cold subzero conditions. Dirty Rigger's® Subzero XC cold weather glove offers genuine Thinsulate® thermal lining combined with Hipora®, one of the world's leading water-resistant, breathable lining brands. Now also featuring Thermo-Cuff™ technology - a 6cm (2") adjustable extended cuff which provides wind/water resistance.

- Hipora®, breathable, water resistant membrane
- Thinsulate® 40gram thermal insulation
- Heavy-duty finger and knuckle protection to resist impact
- Thermo-cuff™ technology - 6cm (2") adjustable extended cuff
- Ultra-grip palm provides excellent grip on slick surfaces
- Low-profile palm padding

INTENDED USES:

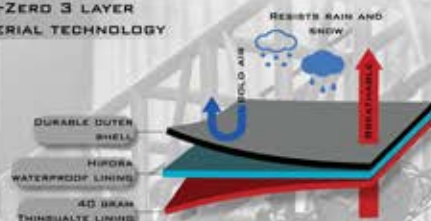

- Cold weather equipment operation
- Outdoor rigging
- Farming
- Winter sports
- Emergency services

THE GLOWMAN

Featuring a super bright, thumb mounted LED, the Glowman light glove is the ideal low-light workman's glove. Shock and water resistant I-lume LED technology by Fibertronic® provides an exceptional level of light, reducing the need for handheld torches and allowing you to work with both hands safely and effectively. Touchscreen compatible index finger and thumb tips, designed to operate all major touchscreen devices without the inconvenience of removing your gloves.

- RoHS compliant
- 140 lumen output
- Constant/pulse LED modes
- Power saving feature
- Touchscreen compatible
- All weather use (wet and dry)

INTENDED USES:

- Use for touchscreen applications
- Use in low-lit areas
- Theatrical and backstage
- Light rigging
- Tactical
- Machine operation

Wash cycles: up to 20
Tumble dry cycles: up to 20

SRT

This glove has exceptional grip and outstanding protection with ultimate dexterity. The SRT rigger glove boasts silicone embossing on key areas for a confident performance in all-weather working environments. High-density knuckle padding and finger guards to protect against impact, combined with micro-perforated inner fingers to help keep your hands cool, even in the toughest of environments.

- Moulded rubber finger and knuckle guards
- Padded knuckles
- Ultra-grip silicone embossed on palm and finger key areas
- Micro-perforations between fingers for ventilation
- Ultra-durable synthetic leather palm / fingertips
- High-density impact absorbing palm padding

INTENDED USES:

- Handling, trussing and scaffolding
- General rigging
- Loading equipment in wet or dry conditions
- Handling cables
- Offshore

FIGHTING THE WAR AGAINST HEAT AND SWEAT

P16

LEATHER GRIP

With a double layer of leather on the fingers, palm and key areas this glove offers outstanding durability. It still includes Dirty Rigger's® double stitching and palm comfort pads, plus the super-soft sweat wipe on the thumb.

- Neoprene knuckle padding
- Terrycloth sweat wipe on outer thumb
- Superior double stitching
- Double layer leather palm in key wear areas
- Low-profile palm comfort pads
- Genuine leather - soft and extremely durable

INTENDED USES:

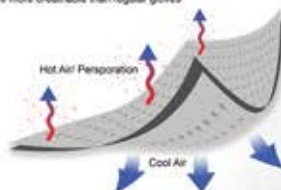

- Rappelling and climbing
- Theatrical use/stage use
- General rigging
- Stunt production
- Loading equipment

AVAILABLE IN

Advanced material ventilation system
80% more breathable than regular gloves

VENTA-COOL

The Venta-cool rigger glove offers breathable qualities which exceed every other glove in our range. A micro-perforated base material built into the palm and glove-back allows heat to pass through and sweat to evaporate into the air and away from the glove's core. The heat transfer process allows for a minimal internal temperature, helping keep your hands cool.

- Breathable airprene wrist cuff to prevent sweat
- Micro-perforated palm and rear of the glove
- Easy on/off pull tag
- Breathable knuckle padding
- Maximum dexterity design
- Synthetic leather in key wear areas

INTENDED USES:

- For use in hot and humid climates
- General rigging
- Loading equipment
- Running cables
- Film set/scenic
- Camera operation

OUR OFFICIAL TESTING PARTNER...

 **CREWSADERS**

It's never been a secret that Dirty Rigger® gloves often go above and beyond their call of duty. Their ability to continually develop, test and construct gloves and rigger-wear of such world-dominating endurance is widely known and recently they've given a little sneak peak as to how they've done it.

Over the last 3 years, Dirty Rigger® has worked closely with one of the UK's largest crew service suppliers, Crewsaders. By sending in a selection of new, existing and under-development rigger wear to be worn by the Crewsaders team, Dirty Rigger® have been able to closely monitor the performance of their gloves throughout the varied industries in which Crewsaders work. From event security to rigging crew, the trained Crewsaders staff have provided report sheets which help to pinpoint any weaknesses in the gloves and identify areas of possible improvement. The field testing of our gloves with Crewsaders is not only carried out during the development stage, it continues throughout the life of each and every model as part of our quality control.

OCTO-POUCH KIT

The Dirty Rigger® Octo-Pouch offers an incredibly durable 600 x 600 denier polyester nylon construction. A built-in buckle system allows secure attachment of a variety of tools directly to the pouch, ready for quick release when required.

- Drawstring closure
- Dirty Rigger® buckle attachment system
- Secure Velcro® closure on both side pockets
- Metal D-rings for additional carabiner attachments
- All black low-profile design - perfect for backstage use
- Extremely durable 600 x 600 denier polyester nylon construction
- Multiple internal pockets
- Pouch dimensions approx : W15 x D10 x H19 (cm)

KIT INCLUDES
 1 x Octo-pouch
 1 x Single Carabiner
 4x Detachable loops

THREE DETACHABLE LOOPS

- Length (un-stretched) 100cm
- Material: Double, heavy-duty elastic cord with heavy duty nylon covering
- Reflective fibre also stitched into nylon outer sleeve
- Lightweight alloy metal carabiner clip either end
- Maximum working capacity: 10lbs/4.5kg

NOTE: Always use with proper personal protective equipment. Not for climbing or fall arrest.

SINGLE CARABINE

- Length (un-stretched) 100cm
- Material: Double, heavy-duty elastic cord with heavy-duty nylon covering
- Reflective fibre also stitched into nylon outer sleeve
- Lightweight alloy metal carabiner clip and adjustable detachable elastic loop
- Removable loops can be pre-attached to tools for easy on/off access
- Includes 1 loop. Additional loops can be purchased separately
- Maximum working capacity 5lbs / 2.3kg

NOTE: Always use with proper personal protective equipment. Not for climbing or fall arrest.

DOUBLE CARABINE

- Loops to be used with our single carabine lanyards only
- Removable loops can be pre-attached to tools for easy on/off access
- Clip your tools to the lanyard as and when you use them

NOTE: Always use with proper personal protective equipment. Not for climbing or fall arrest.

PADDED UTILITY BELT

The Dirty Rigger® padded utility belt offers an extra wide 5-inch back, lined with a breathable mesh and padded with specially selected foam for exceptional comfort.

- Breathable inner mesh
- Extra wide 5-inch padded back
- Fully adjustable - one size fits all design (30" - 42")
- 4 repositionable / removable D-ring attachments
- Adjustable quick-release buckle
- Compatible with all Dirty Rigger® tool pouches and lanyards

Fits sizes 30" - 42"

Fits sizes 30" - 42"

TOOL BELT

Offering incredible comfort and durability, the padded 3D internally-breathable mesh provides excellent ventilation throughout the belt.

- Tried and tested heavy-duty 50mm belt buckle
- Fully adjustable - one size fits all design (30" - 42")
- Fully compatible with the Dirty Rigger® pouch and accessories range
- Adjustable quick-release buckle
- Breathable inner mesh

CARABINES (5 pack)

Finally here! Dirty Rigger® laser engraved Carabine Clips. A cost effective way to keep your gloves and other accessories secured to your tool belt or pouch when not in use. Snap-lock carabine clips constructed from lightweight aluminium .

Not designed or rated for climbing or fall arrest!

MAGTAPE HOLDER

Everyone needs an extra hand sometimes and the Dirty Rigger® gaffer and accessory holder is designed for just that. Quickly and securely, it offers an easily accessible strap for holding tools, clamps, bags and it's original design intention, gaffer tape.

Secure carabine clip for instant attachment and release, combined with a fully adjustable buckle for varying the drop length and tightness.

GLOVE CLIP

Securely keeping your protective gloves by your side, simply clip/unclip and go. The Dirty Rigger® glove guard is designed with a patented safety break-away system to help prevent injuries from snagging during high-level rigging.

Proven implementation can dramatically reduce glove replacement costs and hand injuries by helping to ensure workmen have their gloves with them at all times.

5kg/7lbs break-away rating

LED CHEST HARNESS

The LED chest rig gives you a powerful light source whilst allowing your hands to remain free.

- Adjusts to hold most hand-held radios/mobile phone devices
- Fully adjustable shoulder and torso straps
- Repositionable and removable LED light source
- 140 lumen multi-function, water/shock-resistant LED device
- Replaceable battery pack located at the rear of the rig
- Large front zip pocket
- Smaller pocket with hook and loop closure

INTEGRATED I-LUMIN TECHNOLOGY
BY
fibretronic®

TECH POUCH

This tech pouch offers safety, versatility and product longevity with easy access pockets.

- Manufactured from 600 x 600 denier polyester nylon
- 2" fixed belt loop
- 4 x steel D-rings for additional attachments
- Hook & Loop fastening pouch flap
- Long handle screwdriver pass-through grommet
- 5 internal pockets and 4 external pockets
- 1 large main internal compartment
- 4mm rubber base
- 2 slim-line, instant access front pockets

RIGGER MULTITOOL

Cut from 4mm hardened steel the Dirty Rigger® multitool offers exceptional durability and versatility. It includes 14 separate tools designed around some of the most common needs in the professional rigging industry.

- 3/8", 1/2", 3/4" nut tools
- 7mm (M6) square nut tool
- 18mm (M10), 20mm (M12), 24mm (M14) nut tools
- 4mm and 6mm Eyelets
- Wire Stripper (x2)
- Wingnut Tool
- Barndoor Tool
- Bottle Opener

PERFORMANCE GLOVES OIL, GAS AND WIND

HIGH PERFORMANCE HAND PROTECTION FOR OIL, GAS AND RENEWABLE ENERGY

British designed, specialist gloves specifically designed for the oil and gas industry developed as a result of years of extensive research, testing and client feedback. From offshore oilrigs, drill ships and wind farms off the coast of Russia, the USA, Australia and all points in between, these gloves have been put through their paces. This is by far the most demanding and harshest environment Dirty Rigger® has ever been challenged to produce gloves for. And now, over a year later, the outcome:- **THE OFFSHORE GLOVE RANGE**. Built with multiple components and branded materials from the likes of Dupont™ and 3M™, combined with our own Hexa-Grip™ and XO-Skeleton™ technology. You can be sure of gloves that will deliver!

CUT LEVEL 5

- Ultra-high visibility yellow and blue colour combination
- EN388 rated - level 5 cut resistance
- XO Skeleton - 5mm rubber guards on the fingers, thumb and metacarpal areas
- Hexa-grip silicone pattern on palm for superior grip
- 6.5cm extended Neoprene® cuff for increased wrist protection
- Articulated knuckle padding for impact protection
- 3M Scotchlite® knuckle strip and fingertips for visibility in low-lit conditions
- Heavy-duty with level 5 dexterity

CUT LEVEL 3 SLEEVE

- EN388 rated – level 3 cut and puncture resistance
- Provides complete forearm protection
- Can be worn in conjunction with any of our offshore gloves
- Suitable for use under clothing
- Made from genuine DuPont™ Kevlar® material
- Comfortable for prolonged usage
- Machine washable
- One size fits all

Designed to give maximum protection in high-risk areas that gloves don't cover. Made 100% from Genuine DuPont™ Kevlar®, the sleeve is designed to give you comfortable and discrete protection from your knuckles all the way to your bicep. The sleeves can be worn in conjunction with any of the Offshore™ gloves in our range and underneath clothing. The sleeves score EN388 level 3 for cut, puncture and tear-resistance, whilst providing a protective barrier against oil and other liquids. No need to worry about sizing as one size fits all, thanks to the special stretch fabric.

WITH SPECIAL THANKS TO...

**Monkey Wrench
Productions**

We would like to thank you for believing in Dirty Rigger® from the start and recognizing the potential of the brand in the US market. As Dirty Rigger's® first ever distributor in the US, you have supported us throughout.

Phone: 001 612 208 0497

Email: info@monkeywrenchpro.com

Our partnership with Matradis Energy has been fundamental in allowing the Dirty Rigger® range to diversify and expand into the oil and gas market. As our exclusive distributor in Malaysia and Singapore to the offshore industry, Matradis have opened a lot of doors for Dirty Rigger®. We truly appreciate the support of Matradis in recognizing Dirty Rigger® as a quality brand of innovative products.

Email: info@matradis.com

 **CREWSADERS**

A special thank you to Crewsaders who have, in the past 3 years, been an essential asset in the design and development of our glove range. For all your event crewing needs contact:

Phone: + 44 (0) 845 094 4884

Email: bookings@crewsaders.com

Many thanks to West Anglia Training Association for providing local support in assisting with the development of the Dirty Rigger line. WATA have provided us with an excellent facility which has allowed us to test new gloves in real life scenarios. More specifically they have been a valuable asset in the development of the 'Pro Grip' glove which has been tailored to be more specific to the scaffolding market.

West Anglia Training Association Ltd (WATA) has established itself as one of the leading training providers in the UK with a reputation for the delivery of first class training courses, where customer care and an efficient, effective quality service is a priority.
